Description

Scope of Work

The scope of work includes the procurement, delivery, and installation of all equipment and materials required for the filtration system. This includes the filter tanks, media, piping, valves, chemical injection systems, pressure gauges, and base pads. The supplier is responsible for the complete installation and connection of the system, including system activation, testing, and commissioning.

Raw Water Quality Parameters:

The raw water entering the system should be capable to meet the Philippine National Standards for Drinking Water (PNSDW).

The filtration system should be specifically designed to treat these elevated levels of turbidity, iron, and manganese in the raw water.

Delivery of the Goods is required Seventy Five Calendar Days (75 calendar days) from receipt of the Notice to Proceed.

The Approved Budget for the Contract (ABC) is Php 6,102,000.00.

Open to Filipino citizens/sole proprietorships, partnerships, or organizations with at least sixty percent (60%) interest or outstanding capital stock belonging to citizens of the Philippines.
